About Macao

Macao is the single most consistent example of cultural interchange between Europe and Asia, a mix of traditional and modern attractions. The official languages are Chinese and Portuguese. Having developed into a bustling city with a worldwide reputation in entertainment, Macao is also at the heart of the Guangdong-Hong Kong-Macao Greater Bay Area, which promotes its fast development in infrastructure development and underground construction in recent years.

Join Us for IS-Macau 2024!

We are very pleased to invite you to participate in the **11th International Symposium of Geotechnical Aspects of Underground Construction in Soft Ground (IS-Macau 2024)** to be held in Macao SAR, China in June 2024. This highly successful series of TC204 symposiums provide a premier forum for researchers and practitioners to present and discuss new problems, solutions, and technologies in underground construction and related areas. The theme of IS-Macau 2024 is “Tunnelling and Underground Construction for Smart Cities”.
